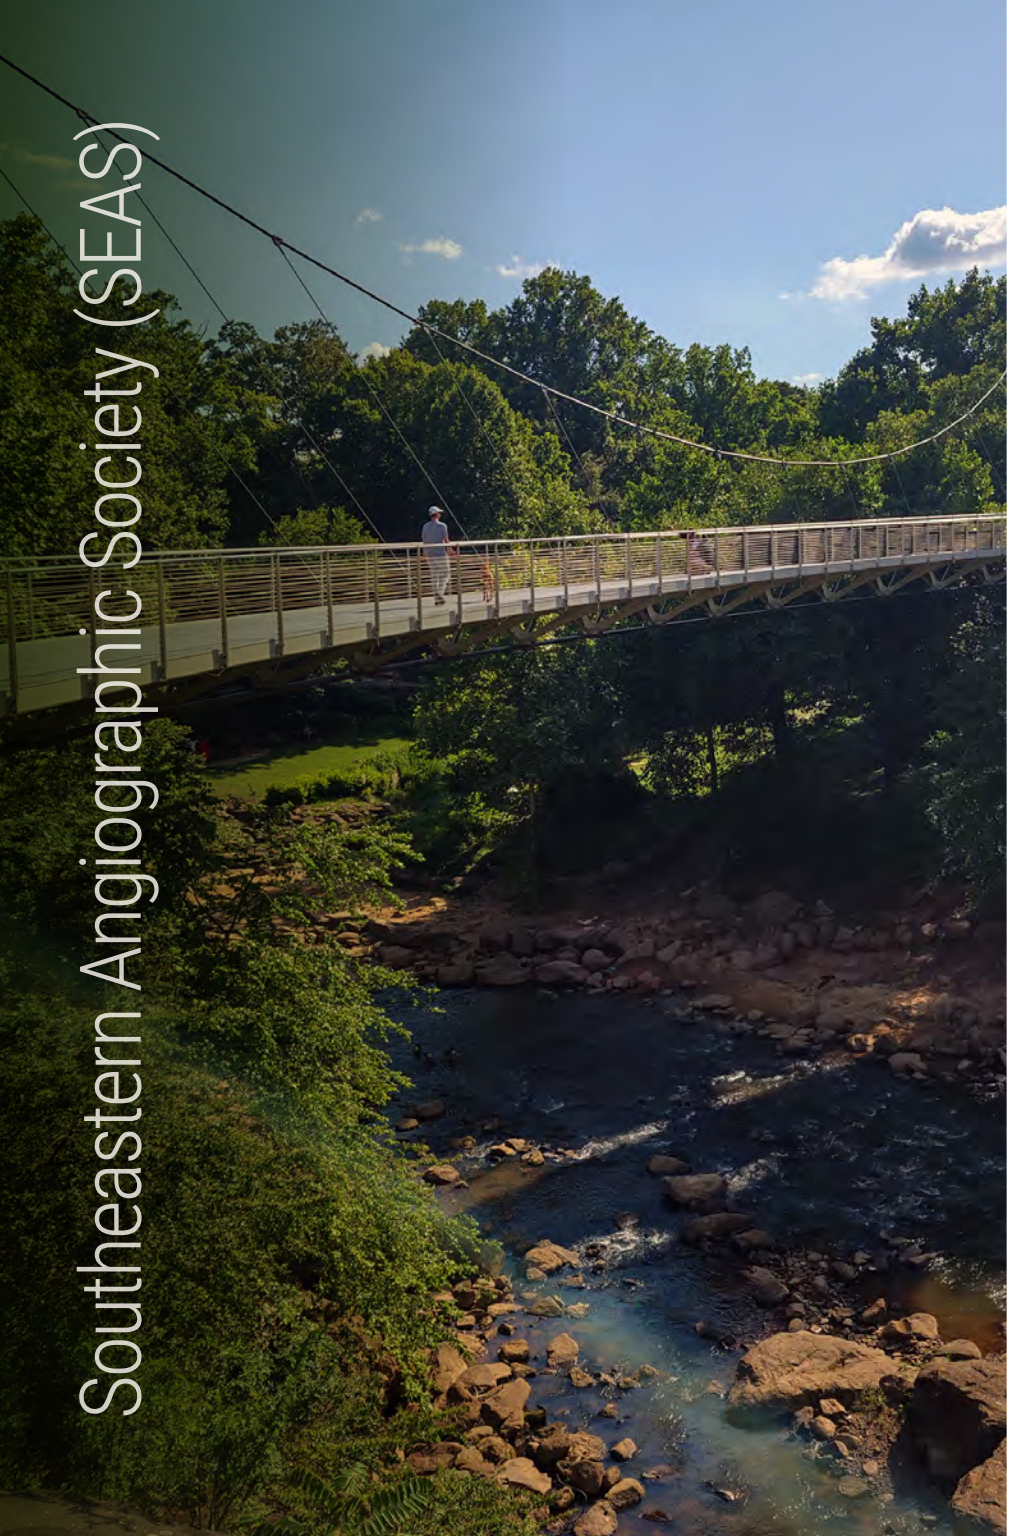
Southeastern Angiographic Society presents
Swingin' for the Fences
October 13–15, 2022
The Westin Poinsett • Greenville, SC
Endorsed by
DukeHealth
SEAS
SIR
Endorsed Event



Southeastern Angiographic Society (SEAS) was founded in 1974 by a group of radiologists who were primarily involved in catheter angiography. SEAS is incorporated in the State of Georgia and now has members from all over the Southeast.

This year's meeting will host a variety of speakers discussing a broad range of topics. We will look at where Interventional Radiology has come from, where we are now, and where we are headed.

With the wide range of Interventional Radiology procedures, private practice and academic IR practitioners come together to discuss research, techniques, and devices. With an emphasis on patient selection, increased success and decreased complications, this meeting focuses on improving outcomes and advancing IR.

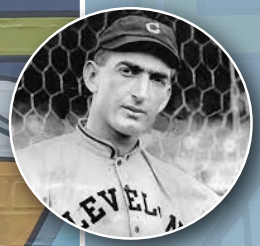
Greenville, SC



Greenville, SC is the proud home of Shoeless Joe Jackson. Shoeless Joe was the focus of the movies **FIELD OF DREAMS** and **EIGHT MEN OUT**. He is considered one of the greatest baseball players of all time. However, his career was tragic. He was accused of throwing the 1919 World Series and was banned from baseball. There are many experts who believe he didn't throw the series because he set a record of 12 base hits in the series (a record that stood until 1964), led both teams in batting average at .375, hit the ONLY home for either team in the series, just 2 strikeouts in 32 at bats, 6 RBI's and committed no errors. He was acquitted by a jury in 1921 but the newspapers coined the famous phrase, "Say it ain't so, Joe." There is a Shoeless Joe Museum and statue in the city of Greenville down the street from the meeting hotel.

Fall for Greenville

We are lucky enough to overlap with the annual Fall for Greenville festival. After the meeting, endulge in a weekend full of flavor. Discover a world of tempting tastes, tunes and taps, as mouthwatering aromas carry you along Greenville's Main Street (just outside of the hotel). The Festival includes 50 restaurants, 6 stages with 75 different bands, 50+ beer taps and wine vendors. More details to come!

Objectives

The Annual Meeting of "SEAS" is one of the best kept secrets in the world of Interventional Radiology. The small size of the meeting encourages interaction between attendees and faculty, resulting in a highly collegial exchange of information. Highlights of the meeting include:

- Hear presentations from three Lou Martin Award winners
- Discuss the latest options for treating venous disease including complex IVC filter retrieval.
- Understand the options for liver metastases between different locoregional therapies.
- Identify recent advances in embolization therapy.
- Review the malpractice process, develop mitigation strategies, and take part in a mock trial.
- Discuss recent advances in a variety of non-vascular procedures.
- Have a greater understanding of clinical adjuncts such as intra-cardiac ultrasound and endoscopy.
- Identify education and research tools that could be incorporated into their practice.
- Participate in a live ICE TIPS
- Witness a live angio club where a panel will take audience submitted cases
- Attend a joint session with the Association of Vascular Interventional Radiographers

The Southeastern Angiographic Society is open to any physician who practices Interventional Radiology. We have a strong commitment to education and offer scholarships for free meeting registration attendance to IR trainee
